Terre de Vignerons

VIGNERONS RÉCOLTANTS DEPUIS 1935

“ I inherited this estate from my parents. They created it the same year as a wine cellar of Gironde-sur-Dropt, that's why they became members right away. We took it over with my husband Bernard in 1976 ;he was also born in the family of wine growers. We have started our family and made our estate grow : thus, we have passed from 14 ha to more than double size today.. Today my husband passed on the torch to one of our daughters, so now the estate is exclusively feminine! Since 2010 we are sustainable agriculture certified, and we are proud to make it public. It doesn't change much for us, except applying even better, environmental friendly methods in our wines. ”
